## General Information

---

MEASUREMENTS: Deciduous trees are measured by their caliper (diameter of trunk). Trees 6" and under in caliper are measured 6" above the ground: trees over 6" caliper are measured 12" above the ground. As no trees will make the same growth, the height of deciduous trees is approximated in this list as closely as possible. Evergreens are measured by height only.

PRICES: The prices herein given are for material dug with the usual size ball and loaded on customer's truck, or F.O.B. cars Amawalk, N. Y. There will be an additional handling charge for trees which we consider too large to be loaded on trucks and which necessitate special equipment for moving. A discount of  $33\frac{1}{3}\%$  will be allowed from the prices quoted herein to all purchasers digging, balling and loading their own trees at Amawalk.

When we supply platforms for material requiring their use, such platforms will be charged to the customer and the amount refunded upon return of platform.

This price list supersedes any previous lists and is subject to change without notice.

TERMS: Our terms are cash: a credit of 30 days will be extended to those with satisfactory bank references.

DELIVERY: Deliveries can be made either by freight, express or motor truck. Packing is charged for at cost on express and freight shipments. Trucking charges are based on the quantity and distance of delivery.

OUR NURSERY is located in Northern Westchester County on Route 100, and on the Putnam Division, New York Central Railroad. Amawalk is 8 miles East of Peekskill and 6 miles West of Katonah, and  $1\frac{1}{2}$  miles East of the Bronx River Parkway at Yorktown Heights.

---

This price list does not contain a list of approximately 7,000 Ornamental and Flowering Shrubs. We will be glad to quote prices for the same upon inquiry.
